

TECHNICAL DATA

HD/LL70 vertical float switch

FOZMULA
INNOVATION IN SENSORS

The **HD/LL70** series is a heavy duty vertical float level switch designed for use in environments where high switching currents and overall robustness are required. The unit is very flexible in design enabling the customer to specify the build standard, voltages and installation fittings.

It is a multi position switch that can be specified to any dimension and any number of switching points (depending upon the depth of the vessel).

SPECIFICATION

Fluid Types:

Fluids compatible with the construction materials

Dimensions:

See below and up to a maximum of 3 metres (118")

Environmental Ratings:

Sealing (terminal box): IP67
Operating temperature: -20°C to +70°C (-4°F to +160°F)
other temperatures on request.

Construction:

Header: 316 stainless steel
Stem: 316 stainless steel
Float and float stops: 316 stainless steel
Terminal box: ABS

Electrical:

Max voltage: 240VAC
Max current: 3 Amps
Max power: 100VA
